

COMPLETE DEMOLITION OF SOCIETY: ZIONIST AIM

By CARL LYONS

Anyone who doubts that fundamental changes are definitely in the making should review current Jewish-controlled publications. The bunching of 'key events' militant and volatile, the spirit of contentiousness and contempt, nihilism and indifference, changing moods, and the persuasive argument that the only way to change a society is to demolish it—all of these cannot be dismissed as a bad dream. The B'NAI B'RITH MESSENGER 12/5/69 carries a full page ad boosting the Jewish Hippie element, with a plea for \$200,000, as follows: "We have been on the UCLA Campus For the Last Few Months With Fabulous Success NOW! WE NEED YOUR SUPPORT TO HELP US TO CONTINUE HELPING OUR YOUTH ON AND OFF THE CAMPUS. EVERYBODY IS WELCOME. 24-HOUR COUNSELING SERVICE. PROTECT OUR FUTURE. OUR COLLEGE YOUTH OF TODAY ARE OUR JEWISH LEADERS OF TOMORROW. CHABAD HOUSE — THE STUDENT'S HOME AWAY FROM HOME."

College Revolution

On April 6, 1971, in Berkeley, California, there will be a city-wide election for mayor and other official posts in the city government. Why is this election so important? It bids fair to be the last so-called election this city will ever have! "WE WANT THE CITY AND WE WANT IT NOW!" is the War Cry blazed on the editorial page of the DAILY CALIFORNIAN (official student newspaper, University of California).

In the David Lawrence column, 2/21/71, we find reference to Black revolutionaries and the names of a few Jews involved with the Weathermen, the New Left, the Black Panthers, the Progressive Labor Party, and others. But nowhere does David Lawrence point out that the Jewish college, Brandeis University, is the information center for campus disturbances in America, nor that the B'NAI B'RITH and the A.D.L., form the brokerage center for mobocracy. Enslaving character is the central interpretive thesis of the Jews — wear mankind down by contradictory impulses toward conservatism and revolution. "Sociological specialists" of the Freud and Marxian variety, Jews numbering into the thousands, are working feverishly to transmute man's inner nature — producing a character structure that in turn reproduces society in the form of ideologies, a direct assault on the basic premise of an open society. This is Jewish strategy: mysticism ingeniously applied, dramatic events leading up to tragic consequences by avaricious artisans who have enacted repressive laws in a scheme to immobilize the White Society in a calculated Jewish renaissance. This in effect sums up Mr. David Lawrence, the Zionist Jew and member of the Council On Foreign Relations, one-time lackey for Barney Baruch. The Jew knows that the last part of the target to wear out is the "bull's-eye," therefore, he doesn't mind the darts . . . and damns the consequences irrespectively, for he knows in the end the lowly Gentile doesn't care either.

Ideas are often more fatal things than guns. In January 1971 David Lawrence editorialized: "NEEDED — A New Form Of Wage And Price Control . . ." In less than thirty days, Mr. Nixon asserted it as a fact. On the one hand is wishful euphoria, and on the other hand we come face to face with reality. Stagnation and blind spots are created by manipulation; it is not the money market that keeps business up, it is business that keeps the money market up. The recent rally in the market consisted primarily of low share holders unloading to avoid personal bankruptcy, but the maneuvering places stock power in the hands of a minority control. The Jew capitalizes on mass hysteria, and is given high marks for his "brilliance" in the economic fields.

We quote from the newsletter: MONEY AND CREDIT REPORTS, Jan. 18, 1971: "Lyndon Johnson sells bank for \$2.7 million . . . has sold two ranches and has two more

HARRY OPPENHEIMER, whose powerful Anglo-American Corp., in typical Zionist Jew fashion, exercises a complete monopoly over the gold wealth of Gentile South Africa. The following is from the *South African Observer*, April, 1969: "Like an intricate spider web the threads of the Anglo American Corp. group (AAC) are spread all over the economic life of Southern Africa. In the center of this web where the least vibration from the remotest corner can be felt, sits Mr. Harry Oppenheimer. Or is it he? The unravelling of this cartel is a task beyond the powers of our cleverest economists and it never will be unravelled unless Mr. Oppenheimer is compelled to abandon his secrecy."

up for sale . . . reportedly told friends that he believes . . . hard times are around the corner."

WASHINGTON OBSERVER, Feb. 1, 1971 states: "A funny thing happened on the way to bankruptcy the other day. As reported in the International Harry Schultz Letter, Basel, Switzerland, a minor incident almost upset the entire international money system. Rwanda, a tiny and barbaric Negro country in Africa, had more dollars than it wanted and asked the International Monetary Fund to exchange them for SDRs. — the so-called "paper gold" created by the international bankers which at least cannot be devalued. IMF had a fit, for if a precedent were set and other dollar-surfeited nations tried the same thing it would result in devaluation of the dollar and the wreckage of the jerry-built international monetary structure. Faced by this crisis, the U.S. Treasury quietly gave Rwanda some of our own SDRs in exchange for their unwanted dollars."

Zionist Gold Manipulation

The following is taken from Myer's FINANCE REVIEW, Zurich, Switzerland, January 18, 1971: "Gold fetched \$140. per oz., when Belgium turned in \$110 million to U.S. Treasury December 23 to get U.S. SDRs worth \$27.5 Million in Gold — when the U.S. failed to redeem the Belgium Gold Claim for gold." This is analogous to the twenty-five cent loaf of bread going for one dollar per loaf. Nations under contract with the IMF put up in gold, twenty-five per cent of the par value of the SDRs, viz a viz: one hundred million dollars in SDRs require twenty-five million dollars in hard gold. Thus, the purchasing needs of a nation can be upgraded seventy-five per cent above their capacity of normal spending. The purpose is to create deficit spending and revitalize international economy. The wear and tear is on the natural resources converted in the National Gross Product at the expense of ordinary citizens. But, the recent stock market decline and restoration has given the monopolizing strength to the manipulators.

To cooperate or to dominate in a world market, in an expanded European Common Market of 250 million consumers, plus the 200 million in the U.S.A. — this becomes the competitive question. A new European Dollar is in the making, one that will be independent from the U.S. Dollar. Therefore, if the Jewish manipulators can sell \$100 million for \$25 million, which is fiat money in exchange for real gold, who becomes the loser? In due time, it literally means an-

other 1933 "BANK HOLIDAY" resulting in punitive action by confiscation of private bank accounts to pay for the NGP going to European markets in a retro-active restitution. The Jew will hold the gold reserve.

Why this Jewish gold manipulation? The power, the force, that motivates the Jew is always the Talmud. The Jewish religion takes its stand on the Talmud rather than the Bible. Thus in the Talmudic treatise "Soferim" we read: "The Bible is like water, the Mishna is like wine and the Gemara is like spiced wine." In *Secret Societies*, page 372, Nesta Webster states:

"After the return of the Jews from all nations and parts of the world to Palestine, the Messiah, we are told in the Talmud, will entertain them at a gorgeous banquet, where they will be seated at golden tables and regaled with wine from Adam's wine-cellar." This is the motivation for the Jewish drive to dominate the gold traffic.

South Africa and Gold

Not apartheid but lust for gold is the real reason for the Jewish tirades against South Africa's alleged racial intolerance. The latter is the world's chief producer of gold. This is the main reason for the Jewish efforts to undermine and control her. The Jews covet the gold for their temple and time is speedily running out. Today the Jew specialist exercises a benign surveillance as the "keeper" of the treasury, and as broker-seller and broker-buyer he can sell you short AND THIS MAKES THEIR BUYING LONG. There is never any loss, merely the transfer from the Gentile hand to the hand of the Jew. The PRIVATE CLUB is a "stock-broker-brotherhood" and it is well spelled-out in clear understanding by Richard Ney, in his book THE WALL STREET JUNGLE, Grove Press, Inc., N.Y. This writer once listened to a club employee describing a common scene where the elite of the Chicago confab on stock deals, drank a toast to their planned schemes: "we will throw them to the wolves."

The Bible and the Talmud

The Bible has served true Americanism, because by it, national virtue was instilled through the moral structure of the New Testament four Gospels, Matthew, Mark, Luke and John. But the four gospels of Zionism, (Bolshevism, Communism, Socialism and Democracy) form the testament of the Jewish World Power play as follows: 1, nihilism 2, revolution 3, political paternalism 4, dissent, by protection of the Courts. The "Red Putsch" is none other than "Jew Putsch." Too many have been neutralized and misled by the fallacy that the Jews are under a halo of divine guidance because of some alleged mandate as the "Chosen" people. To such misguided fools we say: "Update your thinking, and view the matter as it all too plainly manifests itself here and now: the victim of their fanaticism is YOU!"

Red Putsch at Berkeley

By DR. GEORGE BENSON

(Excerpts from National Education Program Letter, Searcy, Arkansas)

Could an American city be taken over by Communists?

It may happen in Berkeley, California, in 1971. A few hundred citizens of Berkeley are mobilizing in an attempt to turn back a powerful radical force seeking to seize control of the Berkeley city government. If the citizen movement (of pitiful, small size) fails and the radical-revolutionary coalition succeeds, many well-informed observers in Berkeley, and elsewhere in California, believe Berkeley will in time become virtually a second Cuba, an aggressive fortress of World Communism at the heart of America's intellectual "Athens" and in one of the most strategic areas, militarily, in the nation.

We Go to Berkeley

Fantastic? Unbelievable? Yes, we thought so too when we began to get word of the (Continued on Page 4, Column 1)
